

[Santa Claus - A little help...](#)

written by Randy Starkey | 12/24/2020

For those of you who struggle with Santa Claus, here is one of the best articles I've read on the subject. It's written by a very strong evangelical pastor with a large and strong church who I greatly respect.

I hope it helps you!

Regardless of what you feel on the subject, it's a secondary issue in Christendom for sure, and is not worthy of making big issues out of. There is enough division in our world today, and this can easily degenerate into religious legalisms. The piece also contains some very interesting historical facts.

Here's the article, and I hope it helps you on this whole subject!
